AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action mailed September 25, 2002, please amend the instant application as follows:

IN THE SPECIFICATION:

(1) Please amend the paragraph beginning at page 10, line 14 into the following form:

A₁ --The personal computer 20 may operate in a networked environment using logical connections to one or more remote computers, such as remote computer 49. Each remote computer 49 may be another personal computer, a server, a router, a network PC, a peer device or other common network node, and typically includes many or all of the elements described above relative to the personal computer 20, although only a memory storage device 50 has been illustrated in FIGURE 1. The logical connections depicted in FIGURE 1 include a local area network (LAN) 51 and a wide area network (WAN) 52. Such networking environments are commonplace in offices, enterprise-wide computer networks, intranets and the Internet. As depicted in FIGURE 1, the remote computer 49 communicates with the personal computer 20 via the local area network 51. The remote computer 49 also communicates with the personal computer 20 via the wide area network 52. --
